

# Winds & Brass

**Disclaimer:** This schedule has been compiled to the best of our ability with the information we had in our Registration Database at the beginning of February. Since then many parents, students, and teachers have reached out to update their participation status and repertoire. As well, there is some past correspondence on this matter that we need to review. Unfortunately, our system is not dynamic and this new information needs to be manually input. These schedules will be updated as we input all of that information.

We will be aiming to maintain the start times of the classes listed here to the best of our ability. All schedules will be dated until marked "final" for this reason.

We are working diligently every day to move this process forward as quickly as possible and appreciate everyone's patience concerning this process.

**Dated:** Thursday, March 7th, 2024
